Subject: Comment: re:: EEA #13635 - Russell Biomass

Re: EEA #13635

I am writing to oppose the biomass plant project because I have grave concerns about the health effects for residents of Russell and the entire Pioneer Valley. As someone who has serious health effects from the pollution that already exists in the Valley, adding to that particulate matter burden seems foolish at best.

Also, I don't know anyone who would want to live in a town where trucks are almost continually going through, leaving significant amounts of diesel exhaust in their wake. The diesel pollution is a serious hazard on its own, in addition to that from the plant itself.

Please consider human health and the environment, our food & water supply, and reject the proposal for a biomass plant in the Valley. Thanks for your time. Dorothy Baker, 39 Fairview Avenue, Northampton, MA 01060
