37. A Public Hearing was called to order on an application submitted by AmeriGas (Rural Gas Service), 216 Lockhouse Road, to amend their gas storage license from 36,000 gallons of propane to 66,000 gallons of propane. Tim Griffin, Area Manager of Amerigas was present to represent the application. Mr. Griffin explained that they are not adding any more propane and that due to a recent inspection by get title here Ben Warren and the State Fire Marshall it was noted that the trucks and tanks on the premises need to be licensed also, even though they are empty, because there is the potential that there could be that much propane on the premises. He explained that the tanks are emptied because they cannot use any propane that may be left in a tank and that the trucks are empty when they are on the premises. He explained there is nothing new being done since the original license was issued. This was a result of an inspection of Ben Warren from the Westfield Fire Department and the State Fire Marshall. Councilor Mello questioned if the request permit to cover what is currently being performed on the premises. Mr. Griffin replied yes. He reiterated that they are not doing anything different than has been done in the past 60 to 70 years. It's a permit to maintain the current operation. Prior to the vote, Councilor Bean informed the Council that the appropriation is self-explanatory as to where the paving will go and also there will be some drainage work done if

money is left over. Councilor Flaherty spoke in favor of using Free Cash for one-time expenses. He explained that Free Cash comes in from revenue that couldn't be used in the budget due to State law for example the marijuana tax. It can also come from an employee that leaves during the year, it's the remainder of the salary or a project that was budgeted that did not get done. Councilor Morganelli questioned what section of Holyoke Road is being paved and that it was his understanding that Holyoke Road has recently been paved and that Meadow Street is a mess and that should be paved. Councilor Onyski replied that it's the entire Holyoke Road that is being paved due to the truck traffic hitting bumps causing the trucks to shake which keeps residents on Holyoke Road up all night. Councilor Allie informed the Council that he thought it was for only one section of Holyoke Road where the trucks were hitting the manhole covers and is this issue being addressed. Councilor Bean informed the Council that there's sections of Union Street being done and that the Mayor rode with the Public Works Department to determine the sections and that it is the entire Holyoke Road and the manholes were not part of the discussion. Councilor Adams commented to make sure Salt City puts the salt inside as has been previously requested and at this time it is still outside and needs to be inside before the paving starts. Councilor Onyski replied that the Building Department or Conservation need to be brought into the situation and that there are sheds being built. Councilor Beltrandi informed the Council that the section of Union Street being paved is not in front of the salt piles and that some remediation is being done. And, that Meadow Street needs the infrastructure fixed before it is paved because it was never done correctly.

43. Upon the motion of Councilor Sullivan, for the Finance Committee, it was VOTED: That the sum of \$38,387.15 be transferred from Police Towing and Storage account #24210714-585001 to the Police Equipment Vehicle Account #12100000-585001 for the purchase of replacing the Administrative/Detective Bureau Vehicle.

Prior to the vote, Councilor Matthews-Kane informed the Council that the appropriation is to modernize the City's method of posting open positions by using Indeed, Glassdoor and Facebook. An experimental test was done using these methods for a position in the Animal Control Department which was successful. She informed the Council that there are 20 open positions in the City and this will attract much more applicants and that the platforms track information of an applicant throughout the whole hiring cycle. It is anticipated that this item will be budgeted in the fiscal year budget. Councilor Morganelli expressed his concern that this is a lot of money and would like to see the amount lowered and there is no proof that it will work. Councilor Flaherty informed the Council that this is a great use of money because not many people read the local newspaper and these methods open up to much more exposure. Councilor Matthews-Kane reiterated that a testing was done with the Animal Control Department and it was successful. Councilor Beltrandi agreed it was a good use of money to expand the field of candidates. Councilor Morganelli offered a motion to reduce the amount to \$10,000.00. There was no second on the motion.

45. Upon motion of Councilor Bean, for the Finance Committee, it was VOTED: That the sum of \$100,000.00 be appropriated from Free Cash (1000-359000) to Department of Public Works, Waste Collection & Disposal Division for the following anticipated expenses: \$85,000.00 to Purchase of Services, acct #14330000-520000; \$13,000.00 to Overtime, account #14330000-513000; \$2,000.00 to Out of Grade, acct. #14330000-514200.

Prior to the vote, Councilor Bean informed the Council that the appropriation is due to the increase costs of disposal, the paying of an employee to work out of grade and supplies, mostly chemicals. Councilor Flaherty informed the Council that the \$85.00 fee paid by residents does not cover the costs. Councilor Sullivan agreed that the costs are significantly higher. Councilor Harris expressed her concern and her hope that there is not a suggestion of raising the fee since there was a recent increase in taxes and sewer fees. Councilor Flaherty replied that he is not suggesting an increase in the fee, he just wanted to make residents aware that costs are higher than what is collected. Councilor Beltrandi added that the cost of fuel and tipping are increasing also and there is no way around that.

46. Upon motion of Councilor Sullivan, for the Finance Committee, it was VOTED: That the sum of \$793,770.00 be appropriated from Department of Public Works, Sewer and Wastewater Division, Undesignated acct #67004400-35900 to the following accounts: \$643,770.00, Purchase of Service account #67004400-520000; \$100,000.00 Supplies account #67004400-540000; \$50,000.00-Additional Capital/ Equipment account #67004400-585000.

Upon motion of Councilor Matthews-Kane, for the Finance Committee, it was VOTED: That the sum of \$75,000.00 be transferred within the Department of Public Works, Water Division as follows: \$50,000.00 from Health Insurance account #68004500-519400 to Overtime account #68004500-513000 and \$25,000.00 from Full Time Hourly account #68004500-511100 to Purchase of Services account #68004500-520000.

Prior to the vote, Councilor Matthews-Kane informed the Council that the transfer is for overtime costs and police detail due to a recent water main break on Court Street near the hospital. The break was due to faulty records kept by the City, therefore the contractor did not

know there were lines underground so the fault was with the City. The money is available due to vacancies.

48. Upon motion of Councilor Bean, for the Finance Committee, it was VOTED: That the sum of \$2,459,310.00 be appropriated from Department of Public Works, Water Division Undesignated Account #68004500-35900 to the following: \$2,091,110 to Purchase of Services, account #68004500-520000; \$168,200.00 to Supplies, account #68004500-540000; \$200,000.00 to Equip/Vehicles account #68004500-585001.

Prior to the vote, Councilor Bean informed the Council that the appropriation is not using tax dollars, it's all rates from water. He informed the Council the appropriation is for refurbishing the Sackett Street office, updating facilities on Reservoir Road and Western Ave phase 2, and chemicals to treat the water. And, a vehicle to encase all the tools needed at a job site and an inside area to work on fittings, this will replace the existing trailer that is being disposed of. It can be driven by everyone as it does not require a CDL. Councilor Sullivan clarified that the Western Ave project was originally a Free Cash transfer, then reworked for a bond order and it was further reworked and will now be for from the Water. Councilor Flaherty questioned what the department is getting for a \$70,000.00 renovation. Councilor Bean replied it is for the office across the street.

Councilor Sullivan, for the Finance Committee, announced that the Police contract was tabled in Committee and will come out at the next meeting.

52. Councilor Flaherty, for the Zoning, Planning and Development Committee, offered a motion, which was duly seconded, that the petition for an amendment at Section 4-50 – Temporary Moratorium on Truck Terminals Moratorium be scheduled for a public hearing at the earliest convenience and be referred to Planning Board and also remain in the Zoning, Planning and Development Committee. Councilor Flaherty read the proposed wording for the amendment petition as follows:

Section 4-50 – Temporary Moratorium on Truck Terminals

Regardless of where otherwise stated in the zoning ordinance, truck terminals, warehouses, and distribution centers, are a prohibited use (with such existing uses remaining subject to the provisions and protections of Section 4-10).

This moratorium shall expire 180 days after the Planning Board’s adoption of a new master plan intended to comprehensively study such use impacts, provided at least one year of local air quality monitoring data has also been collected. In no case shall this moratorium extend beyond December 31, 2023. At such expiration this section shall be deleted in its entirety without recourse to any further amendment and public hearing process.

He informed the Council that there needs to be some further discussion and clarification of the definition of truck terminals, warehouses and distribution centers and he reiterated that it would be temporary moratorium. Councilor Beltrandi informed the Council that it is not a good idea for a moratorium when trying to market the City. Councilor Sullivan asked where did the petition come from. Councilor Flaherty replied that originated with former Councilor Babinski and submitted as a motion. Councilor Matthews-Kane informed the Council that she agrees with Councilor Beltrandi but because it is temporary she will support the motion.

Councilor Bean agreed with Councilor Beltrandi and that there has to be planning processes in place to know how the traffic will be handled on the north side and that 180 days is not a lot of time to show any results and not good for the City. Councilor Flaherty explained that the moratorium will expire 180 days after the adoption of the Master Plan. Councilor Allie informed the Council that he is a no vote because it's too much uncertainty for businesses. Councilor Mello informed the Council that if the City is asking for help from the DOT engineers then the traffic situation cannot keep changing and that the moratorium is appropriate in terms of the Master Plan. Councilor Morganelli informed the Council that he can hear both sides in that it a moratorium sends a bad message to the business community, yet he has received a lot of calls from Ward 1 residents asking to have the truck traffic reduced. Councilor Harris questioned when the Master Plan is scheduled to be finished. Councilor Flaherty replied the Master Plan should be done in the first or second quarter of 2023 and the moratorium will expire at the latest December 31, 2023. He explained that the Planning Board asked the Council to bring this back up, to hold the public hearings and then it could be modified. It's about health and quality of life. The motion isn't to approve it, it's to hold a public hearing. Councilor Allie informed the Council that everyone knows there's truck traffic but wants businesses to consider and if there was a moratorium Old Dominion would not have come. Councilor Morganelli, to Councilor Allie's point, there's truck traffic that doesn't involve a truck terminal, there are trucks in the City for other reasons. And with the data center there will be trucks going back and forth from there for construction and delivery. Councilor Mello asked if the moratorium was put in place, could it be rescinded. She informed the Council that all Councilors recently took an oath to uphold the Constitution and Article 97 is the right to clean air. Councilor Beltrandi reiterated that the moratorium is a slippery slope.

Upon motion of Councilor Flaherty, for the Zoning, Planning and Development Committee, it was
