Prior to the vote, Councilor Bean informed the Council that the \$270,000.00 would be used for the asphalt, paving and milling of Park River Drive and Park River Circle. Councilor Burns, Ward 4 Councilor, stated that the residents had been working on having the street accepted for at least 10 years. Councilor Burns thanked Councilor Fanion for working on the Temporary Repairs Ordinance to change the requirement from 50 to 30 years. Park River Drive and Park River Circle met the criteria for Temporary Repairs. Councilor Adams noted the amount of time that Councilor Burns had spent trying to get the neighborhood paved. Councilor Morganelli stated that when streets are accepted as public ways, it increases the municipality's Chapter 90 money. He added that because emergency vehicles and plows need to access all roads, temporary repairs were also important. Councilor Mello asked if this would make the streets more qualified for street acceptance. Councilor Allie asked about the sewer infrastructure. Councilor Burns stated that the residents paid out of pocket to install a new sewer pump last year and that they maintain it.

At 7:16 PM, the President declared a recess.

At 7:18 PM, the meeting was called back to order.

PETITIONS, REMONSTRANCES, AND OTHER PAPERS

20. A Public Hearing was held on an application for a License for Underground Storage Tanks at 0, 21, 29-45 and 33-39 Southampton Road (Map 50R, Parcels 21,16,17 &18) for 28,000 gallons of Regular Unleaded Gasoline, 6,000 gallons of Premium Unleaded Gasoline, 26,000 gallons of Diesel and 2,500 gallons of Diesel Exhaust Fluid, submitted by R. Levesque Associates on behalf of John Kayrouz. The representatives present for the application were Ryan Nelson from R. Levesque Associates, as well as the applicant, John Kayrouz of Racing Mart, a regional gas station and convenience store owner. Mr. Nelson informed the Council that the site previously obtained Planning Board permits that were still valid. Mr. Kayrouz is going to pursue the lease for the property and one of the final components is getting the license for underground storage tanks. He reviewed the project site, which is the former Friendly's next to the Massachusetts Turnpike. He stated that Mr. Kayrouz also owns the location of the Mobile station on Southampton Road. He confirmed that the project would follow all Massachusetts Department of Environmental Protection underground storage tank requirements and industry best practices. Councilor Adams asked if the applicant had worked with the state regarding any potential plans for the roadway before moving forward with the project. Mr. Nelson stated that the parcel was owned by MassDOT. Mr. Kayrouz stated that

they had been working with MassDOT and just recently had a conference call regarding the roundabout and traffic signal. Councilor Knapik asked who the leaseholder was for the parcel. Mr. Kayrouz stated that they were undergoing approval of MassDOT to be a sublease holder. Councilor Matthews-Kane asked for confirmation that the site was not over the Aquifer Protection District. Mr. Nelson confirmed that it was not. Councilor Bean asked if a market analysis had been done to see if there was a need for an additional gas station in this location. Mr. Nelson stated that R. Levesque Associates had not but that he believed the location had ample turning radius and space near the on and off ramp for improved site flow for a gas station. Councilor Allie asked if it would be a Pride Gas Station. Mr. Kayrouz stated that it would be a KP Market and that they hadn't discussed which brand of gasoline. Councilor Morganelli asked if there would be any parking for large tractor trailer trucks. Mr. Nelson said no. He reviewed a site plan for the business which didn't have any provisions for truck or long-term parking. Councilor Onyski stated that there was overnight truck trailer parking a quarter mile down the street. President Figy asked if the project would take up the whole parcel and if it would be maintained. Mr. Nelson confirmed. At this time President Figy opened the public hearing to the audience for questions of fact. Jessica Britton, 36 Casimir Street, asked how many inlets and outlets the site would have. Mr. Nelson referenced the site plan, showing the entrances and exits, noting that there would be signage directing the flow of traffic. Mr. Kayrouz stated that they were in close contact with MassDOT and that all curb cuts would have to be approved. President Figy reminded everyone that the application before the Council and subject of the Public Hearing was for an underground storage license. President Figy opened the Public Hearing for members of the audience to speak in opposition. There was no one present to speak in opposition to the application. President Figy opened the Public Hearing for members of the audience to speak in favor of the application.

With no others appearing to be heard and upon motion of Councilor Bean, it was VOTED: That the Public Hearing be CLOSED and the petition be REFERRED TO THE LICENSING COMMITTEE.

21. A Public Hearing was held on a zoning petition of the City Council to implement an interim restriction for Battery Energy Storage Systems (BESS). Councilor Fanion, chair of ZPD, informed the Council that the item was referred to Council by the Planning Board. They requested that a moratorium be set on battery storage facilities and accessory systems. ZPD met and gave a favorable recommendation for the moratorium. There will be future Public Hearings for what the regulations would look like, at this time, the hearing is dedicated to the moratorium. She explained that moratoriums could not be indefinite. The end date for the proposed moratorium is September 30, because state regulations require a comprehensive permit application and regulations be in order by October 1. She added that they would be looking at state regulation which are anticipated to be adopted soon, to come up with regulations for the City of Westfield. At that time there will be additional Public Hearings for input on the regulations. Councilor Mello asked if anyone had asked the Law Department to review if the moratorium could have an unintended consequence with the state. Councilor

Fanion stated that the Law Department reviewed the moratorium but that she did not specifically ask that question. She added that it was important to have the moratorium on record. At this time President Figy opened the public hearing to the audience for questions of fact. There was no one present to ask questions of fact. President Figy opened the Public Hearing for members of the audience to speak in opposition. There was no one present to speak in opposition to the application. President Figy opened the Public Hearing for members of the audience to speak in favor of the application. City Planner Jay Vinskey stated that the Planning Board submitted a positive recommendation. He added that the moratorium had been advertised and noticed, so it was technically in effect with the way zoning worked. Councilor Allie spoke in favor of the moratorium and stressed the importance of having something in place. Councilor Morganelli asked for a deeper explanation of the first paragraph of Section 5-31 and what it would do for Westfield for the next 7 months. Councilor Fanion stated that the moratorium would give them time over the next 7 months, to establish local ordinances relative to battery storage facilities and accessories which would include things that could be controlled through zoning. She noted that they could not flat out prohibit battery storage systems. Councilor Knapik stated that he was with the Department of Energy Resources when the concept of battery storage was kicked around in Boston. He explained during the winter from 4:00-7:00p.m. when the streetlights kick on and everybody gets home from work, the demand on the grid is astronomical. In addition to atomic plants and natural gas and coal generators, there used to be power plants known as Peaker plants across the state would kick on to answer the demand that came across the state. One of the answers to getting power to the grid quickly during peak points, was with the development of lithium-ion storage batteries. He stated that he hadn't seen the draft regulations from the state but his question for the subcommittee would be if the City would be, would Westfield be able to limit where they were zoned. Councilor Fanion confirmed that ZPD would investigate that. Jessica Britton, 36 Casimir Street, voiced her concerns with battery storage systems and lack of data regarding the effect they have on the safety of residents. Councilor Morganelli asked if the moratorium addressed other types of lithium battery businesses such as recycling and manufacturing which were addressed when a draft ordinance was previously before Council. Councilor Fanion stated that the moratorium addressed battery storage facilities and accessory systems. Councilor Morganelli stated that he would like to see the item referred to Committee to be a complete moratorium and voiced his concerns with the safety risks of lithium-ion batteries. Councilor Knapik stated that he would like to see the item referred to committee to look back at the Green Communities Act that was adopted years ago to answer questions that were raised tonight. Councilor Mello stated that the moratorium was in response to the draft ordinance that would have sited BESS in every zone. She informed the Council that the electrolytic solution in BESS is PFAS. She agreed that additional moratoriums for additional issues may be needed but believed if there weren't any unintended consequences, they should pass the moratorium. Councilor Allie stated that clean energy doesn't threaten the environment; this doesn't fit the definition of clean energy. Chris McCrary, McKinley Terrace, encouraged the Council to adopt the moratorium. He believed that time was of the essence

and debating on the moratorium would put the City behind the eight ball on drafting an ordinance.

With no others appearing to be heard and upon motion of Councilor Fanion, it was VOTED: That the Public Hearing be CLOSED. Councilor Morganelli was OPPOSED.

Upon motion of Councilor Fanion for the Zoning, Planning and Development Committee, it was VOTED: That a Zoning Ordinance entitled Section 5-31 - Interim Restriction for Battery Energy Storage Systems be given first reading by title only. All in favor, voice vote.

The Ordinance was given first reading by title and upon motion of Councilor Fanion, it was VOTED: That the Ordinance be PASSED TO SECOND READING. All in favor, voice vote.

Prior to the vote, Councilor Bean informed the Council that during the Finance meeting, the Department was close to depleting the Ambulance Overtime Account. He stated that extensions to the Family Medical Leave Act have added to the need for overtime. He reminded Council that they cut the overtime account last year and they were able to manage it. The original request was for a transfer of \$150,000.00 but the Committee decided to cut that number to \$75,000.00 in hopes the Department could manage the overtime and come back with additional requests if necessary.

23. Upon motion of Councilor Harris, for the Finance Committee, it was VOTED: That the sum of \$7,158.96 be appropriated from Free Cash (1000-359000) to the Department of Public Works Land and Natural Resources Division Capital Equipment Account (14990000-585000) for the construction of a greenhouse that will be used to grow flowers for City use.

Prior to the vote, Councilor Harris informed the Council that the City currently spends \$9,000.00 per year on flowers and the greenhouse will cost \$7,158.96 and then minimal costs for seeds and soil yearly. The Department of Public Works will help the Westfield Technical Academy (WTA) students construct the greenhouse and it will sit comfortably on WTA property. The students will grow flowers to be used in Westfield downtown. After this year, city costs will be reduced. Students will have hands-on training for horticulture and construction. Community Development Director Peter Miller stated that flowers are aesthetically pleasing and symbolize vibrancy in life. In the downtown area, flower baskets are a low cost, high impact infrastructure. They quietly communicate that the downtown area is active, cared for, welcoming and we're spending time and money to support that. Councilor Adams said he was told that WTA had five greenhouses already. Councilor Figy stated that there were two greenhouses at WTA and that one is strictly for hydroponics. Councilor Knapik confirmed that the Finance team did ask that question and that the greenhouses the WTA currently has are all taken up with WTA horticulture projects so there would be no space for this project with what is already at the school. Councilor Morganelli informed the Council that the total amount of Free Cash requests on the agenda that evening totaled \$773,005.87. He gave accolades to the WTA horticulture program and their annual plant sale. He stated that he was looking forward to seeing the flowers noting that beautifying the City would help businesses and help residents feel good.

24. Upon motion of Councilor Bean for the Finance Committee, it was VOTED: That the sum of \$24,314.43 be appropriated from Free Cash (1000-359000) to the Department of Public Works Land and Natural Resources Division FY26 Capital Equipment Account (14990000-585000) for the purchase of a zero-turn lawn mower.

Prior to the vote, Councilor Bean stated that the zero-turn mower they're replacing is from 2014 and on its last legs. The Department of Public Works Land and Natural Resources Division will use the zero turn for the rail trail, parks and any open space that they maintain. Councilor Allie stated that he spoke with a front-line employee who stated the original zero turn mower was purchased to mow the cemeteries. The new model will have a rear discharge, rather than a side discharge which he noted is better for the cemeteries, so the grass doesn't blow on the stones.

25. Upon motion of Councilor Bean for the Finance Committee, it was VOTED: That the sum of \$66,505.00 be appropriated from Free Cash (1000-359000) to the Department of Public Works Waste Collection Division FY26 Purchase of Services Account (14330000-520000) for costs associated with curbside leaf collection.

Prior to the vote, Councilor Bean informed the Council that this was not in the original FY26 budget. The administration and Mayor's office heard the outcry that leaf pickup was important to residents. The appropriation of \$66,505.00 will cover the costs associated with the fall 2025 curbside leaf collection. Department of Public Works Director Randy Brown will budget curbside leaf collection for 2026.

27. Upon motion of Councilor Knapik for the Finance Committee, it was VOTED: That the sum of \$51,321.48 be appropriated from Free Cash (1000-359000) to the Technology Center Purchase of Service Account (11550000-520000) to upgrade radio infrastructure throughout the municipality.

Nicholas Morganelli, Jr.	Yes
William Onyski	Yes
James Adams	Yes
Dan Allie	Yes

Prior to the vote, Councilor Knapik informed the Council that IT Manger Lenore Bernashe was at the Finance Committee meeting and explained that the appropriation of \$51,321.48 was related to the Motorola radio infrastructure software. They were just recently made aware that an unanticipated upgrade was required. Going forward, the maintenance of the software is an annual cost, budgeted for in the annual IT budget. Councilor Bean stated that he believed the IT Department was underfunded. He further stated that Mrs. Bernashe does a fantastic job and commended her department for all they do. Councilor Morganelli stated that he had met with the Mayor to ask about the Free Cash requests on this evening's agenda. He stated that there were several IT requests including software updates and hardware replacements, things that the City certainly needs. Rather than inflating the budget, they are being purchased with Free Cash, in this case he stated it was a good use of Free Cash.

Councilor Adams echoed that Mrs. Bernashe does a great job. He noted that if every Department did this with Free Cash, the city would be in trouble. He encouraged Departments to put every need in the budget. Councilor Knapik stated that the Finance team discussed this with Mrs. Bernashe, most of her items are budgeted for or in her Capital Plan. This was unanticipated. He shared with the Council that an unintentional consequence of the Whip City Fiber success is the negative impact that it has had on the Comcast Revenue Account which directly affects the IT budget.

28. Upon motion of Councilor Knapik for the Finance Committee, it was VOTED: That the sum of \$60,000.00 be appropriated from Free Cash (1000-359000) to the Technology Center Replacement Equipment Account (11550000-587000) for the purchase and installation of replacement switches to support the network infrastructure at the Technology Center.

Prior to the vote, Councilor Knapik informed the Council that the appropriation of \$88,706.00 would be used to purchase an upgraded Permit and Code Software System for the City which would begin with the Building, Planning, Zoning, Fire and Code Enforcement first. It will replace the former permit and code system known as MUNIS. It interacts with a statewide permit system so information will populate if a vendor or contractor is in the system. The cost will cover the remainder of the fiscal year. There will be additional costs of \$74,000.00 in FY27 and \$78,000.00 in FY28 and \$82,000.00 in FY29. Councilor Knapik shared that it was a system they used at his previous job and that it was user friendly, expedited processes and allowed easier communication. Councilor Bean noted that there were talks about extending it to additional departments in the future.

30. Upon motion of Councilor Knapik for the Finance Committee, it was VOTED: That the sum of \$130,000.00 be appropriated from Free Cash (1000-359000) to the Technology Center Capital Project Account (11550000-580000) to replace the In Row Cooling Rack system located at the Technology Center, which has reached the end of its serviceable life.

Legislative and Ordinance Committee

31. Upon motion of Councilor Onyski for the Legislative and Ordinance Committee, it was VOTED: That a Resolution entitled "A RESOLUTION TO FILE AND ACCEPT A GRANT FROM THE DIVISION OF ECOLOGICAL RESTORATION TO WESTFIELD WATER DEPARTMENT" be CONFIRMED.

All in favor, voice vote.

Prior to the vote, Councilor Onyski informed the Council that the Resolution would allow the City to accept a grant from the Massachusetts Department of Ecological Restoration to the Department of Public Works Water Division for FY26 Dam Removal Preliminary Design Services. There was no match for the grant. The reservoir was built in 1874 and used up until 1974. The reservoir spans 51 acres with 184 million gallons of water. The property that the city owns in Montgomery is 270 acres. The damn is considered a high hazard damn. In addition to vegetation management on the damn, the City spends \$30,000.00 in lieu of taxes and \$5,000.00 every two years for inspection of the damn. This is the first step in possibly removing the high danger damn. Councilor Adams asked if the City would be checking with the State Department of Fish and Game prior to doing any work to confirm there were no restrictions that would prohibit any of the proposed work. Councilor Onyski confirmed that the Department of Public Works was aware and would address it in the study.

32. Upon motion of Councilor Onyski for the Legislative and Ordinance Committee, it was VOTED: That an Ordinance entitled "Chapter 6, Building and Building Regulations" be given first reading by title only.

The Ordinance was given first reading by title and upon motion of Councilor Mello, it was VOTED: That the Ordinance be PASSED TO SECOND READING.

All in favor, voice vote.

Prior to the vote, Councilor Onyski informed the Council that one of the changes would change the title from Building Superintendent to Building Commissioner, aligning the title with state statutes. It removes the Board of Appeals, a committee that never existed on local level, the State has an appeal board. It also cleaned up outdated terms, procedures and references. Councilor Allie stated that Attorney Reed did a great job, knowing that the Ordinance hadn't been updated in 40 years, she made it a point to go through the entire document. Councilor Bean asked if the update to the job title would affect the hiring process or anything with the union. Councilor Onyski replied that it would not. Councilor Matthews-Kane asked if the protections that were listed in the section regarding rental units as accessory

units were anywhere else in the ordinance. Councilor Onyski asked Councilors to email him specific questions for follow up.

33. Upon motion of Councilor Onyski, it was VOTED: That acceptance of MGL Chapter 59, Section 5, Clauses 22I and 22J as requested by Director of Veterans Services Julie Barnes be REMOVED FROM COMMITTEE and REFERRED TO FINANCE.
All in favor, voice vote. Councilors Burns and Matthews-Kane and Burns recused themselves.

Prior to the vote, Councilor Onyski informed the Council that the Committee discussed the items and although it has valid reasons to pass, the amount of money in this is high. It could be a \$300,000.00 impact to the City. The L&O Committee felt that Finance would be best to discuss acceptance of Clauses 22I and 22J.

34.
