A CONTINUED PUBLIC HEARING was held on an application submitted by J.R. Russo & Associates LLC for D.F. Chase Inc. for a Special Permit/Site Plan Approval/Stormwater Permit for a truck terminal for Old Dominion Freight Lines (ODFL) at Medeiros Way (Parcel 70R lots 23 & 24) pursuant to Zoning Ordinance 3-120.3(5). Mr. Tim Coon, Professional Engineer with J.R. Russo & Associates LLC, was present to represent the application. He informed the Council that per comments and concerns from the previous public hearing the following changes have been made. The radius for the no right hand turn was tightened up in order to prevent the ability of the trucks to turn right. There have been added exit signs relative to no travel on Root Road. Confirmation was received from City Engineer that nothing additional is needed for the stormwater permit. The architects provided a letter explain why Old Dominion opted out of pursuing a lead certification building and explained that features in the design use products/systems/materials that conserve energy and save on natural resources. He presented an aerial photo of the proposed facility to demonstrate the proximity of the nearest residential structures which is Armsbrook Village at 590 feet away with over 400 feet of trees in between and White Oak School which is 910 feet away and with that distance and trees lighting from the facility will not affect residential neighborhoods. He addressed the question relative to the property taxes to be paid on the property/proposed building and based on the 2019 tax rates the taxes are estimated to be \$115,000.00 per year. Mr. Michael Griggs, Nashville, TN explained the difference between lead certification and green building and that Old Dominion meets or exceeds building code standards and uses energy efficient products and systems. Councilor Emmershy questioned if a truck hugged the left side of the exit could a truck take a right hand turn out of the facility. Mr. Coon explained that a truck could not take a right hand turn with the new design. Mr. Tom Williams, manager of the South Windsor, CT facility explained that the drivers coming in and out with freight are the same drivers employed by Old Dominion. Councilor Babinski questioned if there would be an expansion to the proposed facility and how many truck trips per day. Mr. Coon explained there is no planned expansion and there are 26 bays so there could be up to 26 trucks per day. Councilor Babinski requested clarification of the hours of operation and number of. Mr. Williams explained that the freight comes in between 6:00 PM to 9:00 PM and then come back at 5:00 AM to 8:00 AM. Mr. Charles Mucciarone, 63 Warfield Drive (138 Root Road, Hampden Village) questioned provisions to upgrade, sound control, light control and usage of water. Mr. Coon again answered that there is no plan for expansion, there are enough trees and space to buffer the sound and light and the trucks are not washed on the premises so no water will be used. Mr. Eugene Paulson, 20 John Drive (138 Root Road, Hampden Village) questioned the route of the trucks from the facility. Mr. Coons again explained no right hand turn out the facility to go towards Root Road. Mr. John Keilch,, 354 Root Road questioned the method of calculation for the property tax and that he calculated it to be \$65,504.00. Mr. Coon explained that he did not do the calculation and that the person that did it based it on current tax rates and used a similar size building from the Assessor's list.

Mr. Keilch questioned the traffic report submitted with the application. Mr. Coon explained that based on the report there is no impact to the current traffic. Ms. Maria Lankowski, 128 Beverly Drive. She questioned if an analysis has been done to calculate the cost of wear and tear on the roads due to increased truck traffic and would the proposed company be required to pay for any repairs. President Figy explained he did not have the answers to those questions. Mr. Dave Flaherty questioned if there is any commitment from Old Dominion to pay excise tax on the trucks. Mr. Coon explained that that was addressed at the last meeting and that it's a national company and the trucks are registered in all states. Ms. Kristen Mello, 27 Moseley Avenue questioned if there was a calculation done relative to the change in ambient temperature due to the cutting of the trees and the building of the building and has the runoff of the water been reviewed by the Flood Control Commission. Mr. Coon explained that there is no requirement for a report for a change in ambient temperature and he has never had to provide that kind of information and the Flood Control Commission does not have to review the plans because the property is not in a flood zone and the stormwater plan has been reviewed and approved by the City Engineer. Ms. Connie Adams, 354 Root Road questioned if the applicant is aware of the enforcement action of a neighbor relative to a stream on the property and is the company going to use driverless trucks. Mr. Coon answered that he is not aware of the enforcement action and no plan at this time to use driverless trucks. Councilor Surprise requested clarification that the trucks from South Windsor, CT are coming into Westfield already and that the only new trucks would be the freight trucks in the morning and evening. Mr. Williams confirmed that is the case. Mr. Matt Roman requested the Councilor support this applicant and not make the same mistakes as previous Councils when they did not approve United Parcel Post to come to Westfield in the old Digital building. Ms. Kate Phelon spoke in favor of the application and submitted a copy of her recent letter to the Editor. Mr. Dave Flaherty spoke in opposition of the application. He reiterated that it's a special permit and that all findings must be met to approve the application. Ms. Amy Beluzo, email to be submitted. Mr. Charlie Mucciarone expressed his concerns with the conflict of how many per day will be going to and from the proposed facility and spoke in opposition. Mr. Eugene Paulson questioned what the 43 employees will be doing. Ms. Patricia Ovitt, 128 Root questioned what prevents the trucks from coming into the property from Root Road. Ms. Connie Adams submitted an email. She questioned if the Council considered the endangered species on the property. Ms. Kristen Mello expressed her concern with the stormwater going into the ground with no more trees to reabsorb that water and expressed her concern of taking down existing trees and that this business should be located in an already developed property and spoke in opposition of the application. Ms. Roz Gwordz requested clarification if 100% trucks cannot use Root Road or will 10% be allowed relative to the traffic report. President Figy explained that report was from prior to the change in the radius of the exit therefore 100% of the trucks will not be using Root Road. Ms. Sue Salva questioned what will prevent trucks from taking a right on to Root Road from the Mass Pike and spoke in opposition of the application. Mr. Keilch questioned the boring report and

requested everyone read it. Mr. Nick Beluzo spoke in opposition of the application. Councilor Babinski spoke in opposition relative to residents' concern of trucks on the north side. She referenced the zone change on Cabot Road from Rural Residential to Industrial A in which several residents spoke against the zone change and it passed despite of those speaking in opposition. She informed the Council that she has received several emails of those in opposition and that many did not want to come to tonight's meeting because they spoke against the zone change for Cabot Road and it passed any way. It's not against Old Dominion it's against more trucks on the north side and this will compound the situation. She read and submitted her several concerns in opposition. Councilor Surprise informed the Council that the conditions can be put on the Special Permit and upon motion of Councilor Surprise, it was VOTED: That the Public Hearing be CLOSED. Councilor Babinski spoke in opposition. Councilor Flaherty abstained because he was not at the first public hearing.
